SC41T-CODEC

SC41T-CODEC is designed for meeting installations with collaboration using PC-based soft codec systems such as Skype®, WebEx®, GoToMeeting®, and others where the room is configured with display and webcam. The kit has four video inputs on transmitter plus an HDMI input on the receiver. The transmitter features 4K scalable 4 x 1 switcher with mirrored HDMI output for monitoring.

- Powerful HDBaseT Colligo™ 5Play with Hi-Speed USB2.0 up to 330ft/100m.
- Transmitter supplies power to receiver via PoH.
- 4K scaling capability.
- HDCP2.2 supported to ensure compatibility with latest contents.
- Extra HDMI input on the receiver for podium laptop connection.
- Balanced audio breakout from receiver HDMI output.
- Relay control function.
- Smart EDID management for optimum resolution.
- Controllable via front panel button, RS232, and TCP/IP.
- Built-in GUI program for system setup and control over LAN.
